

**New Written Record of
a Great Voyage**

Complete voyage missions with Captain Cook!

James Cook

A British explorer and seafarer

“

Hello, everyone.

I'm a British explorer, Captain James Cook of the 18th century.

I, Captain Cook, am a great explorer who reached the Antarctic on three voyages.

Why don't you create a fun voyage record by participating in a thrilling adventure like me? Create your voyage record by completing five missions!

”

Mission Guide

1. Search for mission locations on the 3rd and 4th floors of the Korea National Maritime Museum.
2. Complete the five missions at mission locations
3. Sailors disrupting order with loud noisy voices will be expelled.

17th century: Western Europe

Begin the Voyage

“ Let us begin the voyage. We are going to sail around the world with [The Secrets of the Sea] a Sea Atlas, which shows world sea routes, produced by Robert Dudley, a famous British map maker. ”

[The Secrets of the Sea] , a Sea Atlas by Robert Dudley
Italy, 1646~47, paper-leather

항해 Mission 1

As a Sea Atlas, [The Secrets of the Sea] embracing the whole world, is a very meaningful and important document as the entire map of Asia is included in it, and the East Sea is marked as the Sea of Korea.

Let's look for Korea in the midst of the map.

Early 15th century: The Ming Dynasty

The Great Voyages are begun

“ Finally, the Age of Great Voyages opened up. When considering this period, many people only think of the Western voyages such as those of Columbus and Magellan. However, 100 years before western people participated in the Age of Great Voyages, the Chinese performed great expeditions unprecedented in the history of mankind to demonstrate their country's power. ”

Zheng He's Fleet

항해 Mission 2

Who is the Chinese figure who led a great expeditionary voyage before Columbus?

During the period that the Great Voyages were begun, what was happening in Joseon? Let's look at a figure who took an active role.

19th Century: Joseon · Japan

Exchange with Foreign Countries

“ You come over to the late Joseon Dynasty. You are passing by Shimonoseki, Japan, as members of the Joseon Tongsinsa, the diplomatic envoy mission, which was dispatched for the purpose of peace with Japan. Starting from Hanyang(Seoul), it takes about 10 months to travel to Edo(Tokyo), Japan. The number of people chosen for the Joseon envoy mission is close to 500, and these envoys consist of not only government officials, but also deputies, court musicians, painters, writers, military officers, and interpreters. These diverse members of the envoy mission continue on their trip for their exchanges with Japan. ”

<A Painting of the Joseon Envoys' Procession to Edo Castle>
Japan, 19th Century, 2400.0*30.0

항해 Mission 3

Let's choose a special role as an envoy among the members of the Joseon Envoy Mission, and write down the goals that I want to achieve on behalf of Joseon.

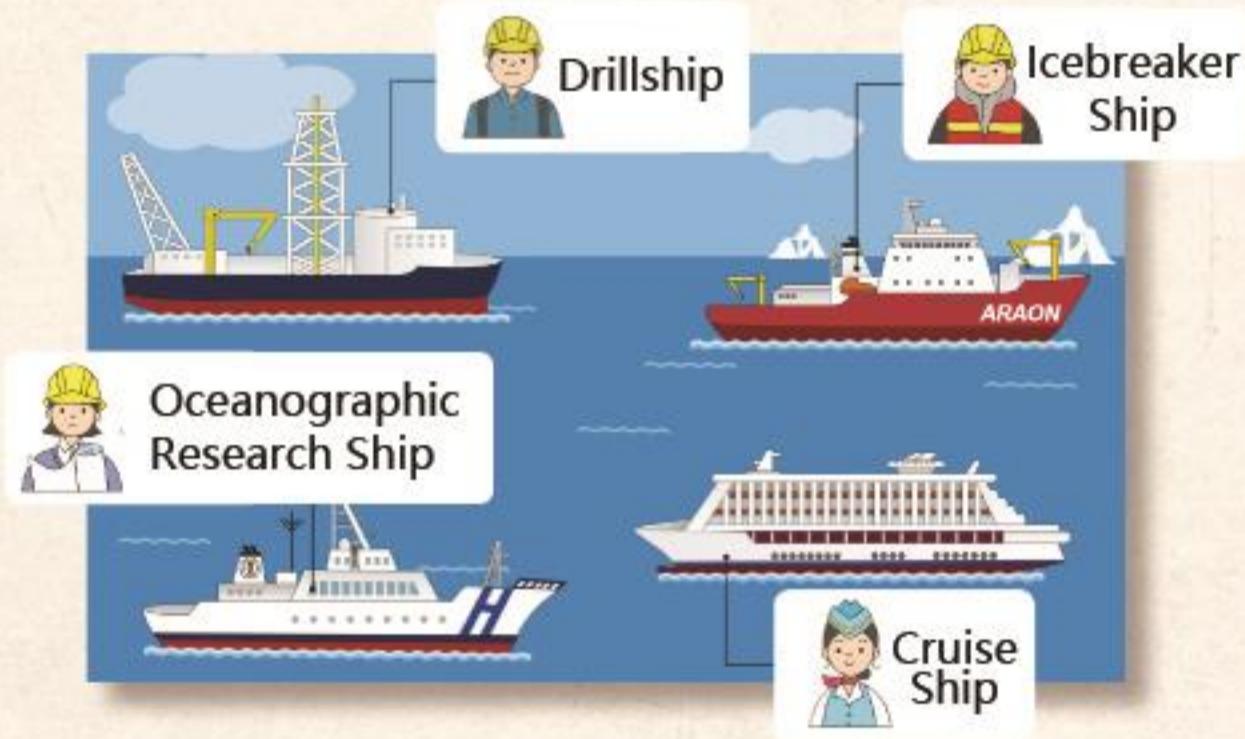

Blank area for writing goals.

Look for the newest ships

“ Now, coming across to today, you are preparing for a world voyage.
The shipbuilding industry of the Republic of Korea boasts world-class technical skills, and there's no ship which can not be produced with Korea's technology, including icebreaker ships in the Arctic, drillships, cruise ships, and oil tankers. You can just choose and take any ship, and sail around the world.

”

항해 Mission 4

To sail around the world, you may choose the ship that you want to use.
Then write down your ship's log for today as a professional member of the crew.

A ship's log for _____ ship by _____

Modern times: The Polar Regions

Look at the future of the earth

“ Finally, we have arrived at the polar regions which are the last destinations for this voyage. These regions carry an important key to human survival. The polar regions play a major role in maintaining the global environment, such as the weather, climate, and ocean current circulation of the earth. Now, by becoming members of the King Sejong Station here, you should initiate research in order to save the earth.

”

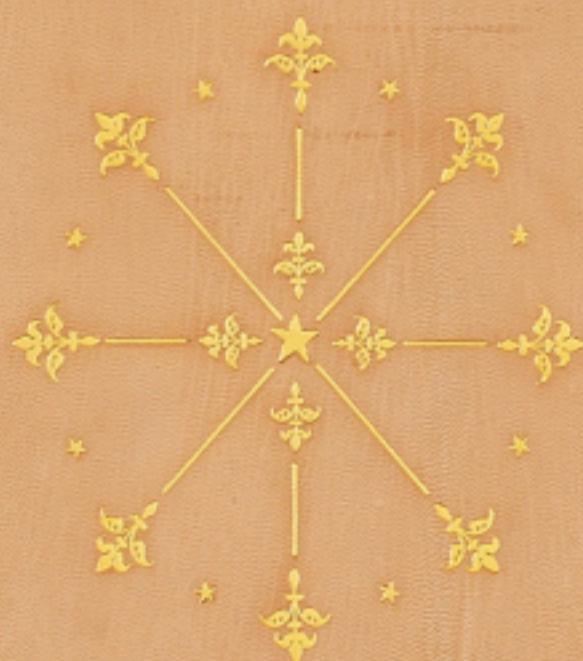

항해 Mission 5

The changes happening at the polar regions have significant effects on the climate and environment of the entire planet.

As overwinter crew members of the King Sejong Station, please write down the research subject that you are interested in to save the earth from global warming.

Blank area for writing a research subject.
